Program Statement 5100.08 - Inmate Security Designation and
Custody Classification

An inmate's security point score is not the only factor used in determining a commensurate security level for an inmate. The application of a PSF or MGTV could effect placement at either a higher or lower level institution than the specified point total indicates. (SEE CHAPTER 5 FOR MORE DETAILED INFORMATION)

NOTE: A security level cannot be assigned by SENTRY without completing an Inmate Load and Security Designation Form. If an inmate has not been assigned a security level, SENTRY will automatically assign "UNKNOWN" as the security level.

* Female security level institutions are classified as Minimum, Low, High and Administrative.

Once all necessary information has been entered into the SENTRY database, a DSCC or Medical Designations Officer, (hereafter, Designator) selects an institution for service of sentence based on all the previously mentioned factors.

Redesignations (transfers) from one Bureau institution to another are considered in much the same manner using many of the same factors used at the time of initial designation. In addition,

the inmate's institutional adjustment and program performance are

also carefully reviewed when redesignation is considered.

Finally, an initial custody level (COMMUNITY, IN, OUT, MAXIMUM) is also assigned to the inmate that is consistent with the institutions mission. (See previous chart). An inmate's custody level within any given security level institution is routinely reviewed and may change for various reasons during the period of incarceration.
